## WiFi the world with us.

### Your tasks

- In an agile team you will implement the requirements of our business logic.
- Your heart beats for structured and tested code. And you know that only tested code can be good code.
- Your application is your baby – you always keep an eye on it and monitor it to make sure it doesn't fall.
- Knowhow transfer is a matter of course for you and you support your colleagues from DEV and OPS in every way you can.

### What we expect

- Terms like Glassfish, WildFly, TomEE, Maven, Git, JMS, MySQL, TCP/IP networks, Prometheus, JEE, Android, IntelliJ, Node.JS, Unittest or Python don't scare you – they challenge you.
- The command line is your best friend. You can't imagine programming without relational databases.
- You are proud to understand and advance the complicated heart of our platform.
- You have already proven good experiences in your several years of work as a software engineer, computer scientist or mathematical-technical software developer (MATSE) in the JAVA environment.

### Who we are

Our team of over 100 forward-thinking professionals offers crucial assistance in shaping the progress of technology. Our innovative network designs, infrastructures and services have been connecting people around the world for more than 15 years.

As one of the largest wireless internet service provider in Europe, we operate branch offices in Aachen, Karlsruhe, Rosenheim, Berlin, San Francisco and Sibenik.

### What we offer

- Central location near the main railway station Aachen
- Familiar environment
- Fitness room
- Individualised advanced training opportunities
- Agile work environment
